

Have you signed to say NO to the proposed BNSF Intermodal Hub? Next zoning meeting is Nov 5. There

is still time to stop by the West Valley Republican office to sign a letter. Tell your neighbors. Spread the word. THE FIGHT IS NOT OVER !!

Stop by and SIGN A LETTER telling the Maricopa County Board of Supervisors:
NO to the BNSF Intermodal Hub!

Where:
West Valley Republican Office
10147 W. Grand Ave, Sun City, AZ

BNSF is seeking approval to build the largest intermodal hub in the United States right here in Wittmann. The citizens of Wittmann and the greater West Valley are not opposed to progress, but they are asking for one reasonable adjustment: move the project farther into the desert. This simple step would protect the western culture, rural lifestyle, and open skies that define Wittmann while still allowing BNSF to expand operations. BNSF is not following Maricopa County's Dark Sky regulations. These rules exist to protect our skies, our wildlife, and our quality of life. Yet, BNSF has ignored them.

This project isn't just about trucks, trains, and freight. It's about the future of Wittmann **and the West Valley.** Will our communities maintain their unique western character, or will they be overrun by unchecked industrial expansion? Residents are making their voices heard: We are not against growth, but we demand growth that respects the people and the culture of this land.
